## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Objections***

2. Claim 10 objected to because of the following informalities: In line 3 of claim 10, "fist" should be --first--. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 7-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Sanpei (JP 5-94690). Sanpei shows in figure 4 a portable data player including casing 52 and door 51 rotatably attached about an axis 56 to casing 52. Door 51 and casing 52 are able, relatively to each other, of at least two ranges of angular positions in which door 51 is open and of a closed position. The closed position is a position in which the door 51 closes an opening of casing 52. The door 51 and casing 52 are fitted one with a shoulder and the other with a rib 53c. Rib 53c is in abutment against the shoulder 52a in one of the range of angular positions.

The door 51 and casing 52 are fitted one with a tongue and the other with a recess whose dimensions are such that the tongue can enter the recess. The tongue is in a position in which it

penetrates in the recess in one of the open positions. Ribs 51a and 51b having holes with the axis 56. Rib 53c has a form such that it is not secant to planes containing the axis and sensibly perpendicular to the main face of door 51.

***Allowable Subject Matter***

5. Claims 1-6 are allowed.

***Conclusion***
